

NOTICE TO OUR PATIENTS

Insurance “rules” seem to change every day! To assure that our billing is done correctly, we need your help. Please...

- Bring your picture ID and insurance card(s) or letter(s) with you to every visit! This includes Medicare and Medicaid.
- It is your responsibility to obtain a referral number from your primary care physician, if your insurance requires you to have one.
- Please be on time for your appointment. As a courtesy to other patients, if you are 15 minutes or more late, it may be necessary to reschedule your appointment.
- If your insurance is an HMO or EPO you must obtain the required referral number/authorization from your primary care physician! It is the responsibility of the patient to communicate this information to his/her primary care physician and insure proper authorization has been obtained prior to your visit with us.
