

TEXAS LUNG CENTER, P.A.

Frank A. Brancaccio, M.D.

Robert D. Black, M.D.

David L. Luterman, M. D.

Michael M. Makary, M.D.

ATTENTION:

It is the responsibility of the patient to verify with their insurance company that our physicians are participating providers with their particular plan. The printed literature from the insurance company and/or the website is not always current. This will keep the patient from possibly owing a large out-of-pocket expense.

REFERRALS:

Patients whose insurance requires a referral are responsible to contact their primary care physician and have them obtain the necessary referral number. If the patient requires a referral, and we have not received it by the time of your visit, the patient will be rescheduled to a later date, until the referral is received.
